Move/5000

ANZ WORLDLINE
Payment Solutions

Payments on the go

Worldline Move 5000

Bust queues and take payments easily from almost anywhere you've got an internet connection in Australia in-store or in-venue – even outdoors[1]

Freedom to move

We've got you covered. 4G connectivity helps to ensure uptime almost whenever, and wherever in Australia, you need to take a payment[1]. Perfect for existing stores and pop-ups, café's, restaurants and more

Integrate with compatible POS

Use your terminal as a standalone device or integrate it into compatible point of sale systems. As your business needs change, you have the option to integrate your terminals[2]

Tipping

Want to give your customers the convenience of tipping at the same time as they make their payment? Eligible merchants can process tips from accepted credit and debit cards[3]

Surcharging

If you want to pass your cost of acceptance onto your customers, talk to us and we can enable surcharging on your payment terminal
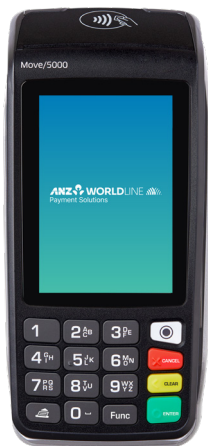

Insights into your business

With online access to your Merchant Portal, you get a structured overview of your Transactions and Settlements

Dynamic Currency Conversion

Offer your customers the opportunity to pay in their home currency with no hidden fees. DCC on the Worldline Move 5000 supports over 40 currencies
